

ALVARO ALTHAAF VIERY

DATA ANALYST

varoviery@gmail.com | +60 197232406 | www.linkedin.com/in/varoviery

I am now studying Bachelor of Computer Science specialising in Data Analysis and Management. That interest is in taking such data and use it in order to make strategic decisions for the benefit of an organization. I believe that every single assignment is a chance to study and I am focused on the growth of my skills to analyze the business processes for perfection.

Ideally, I am a person who enjoys working on various tasks and cases as I like to have a great impact in the area of my competency and utilize my creativity as much as possible. The great passion for data and trends in addition to Analytics will facilitate a ever growing wealth of knowledge and meaningful contribution for the collective endeavours.

WORK EXPERIENCES

Point of Sale Associate | Big Boss HSP (Kuala Lumpur, Malaysia)

Oct 2023 - Jun 2024

- Processing Transactions:** Handling payments, including cash, credit/debit cards, and mobile payments, and providing customers with change and receipts.
- Customer Interaction:** Greeting customers, answering questions about the menu, and ensuring a smooth and friendly experience at the payment counter.
- Order Management:** Sometimes taking orders for takeout or dine-in, depending on the setup of the restaurant.
- Handling Refunds and Discounts:** Managing returns, refunds, and applying any discounts or coupons that customers present.
- Maintaining Cleanliness:** Keeping the cashier station tidy and ensuring the work area is organized.
- Collaboration with Other Staff:** Communicating with kitchen staff and servers to ensure orders are correct and delivered in a timely manner.
- Promoting Specials:** Informing customers about promotions or daily specials, especially in a fast-casual or quick-service restaurant setting.

Logistic | Instellar 2023 (Kuala Lumpur, Malaysia)

Jul 2023 - Oct 2023

- Site Planning:** Designing the layout of the event space, including stages, vendor booths, seating, restrooms, and entrances/exits.
- Infrastructure Setup:** Coordinating the setup of tents, stages, seating, and other physical structures required for the event.
- Electrical & Lighting:** Organizing power supplies, lighting, and sound systems for different areas, such as stages, vendor stalls, and pathways.

Owner | Kopi Koploe (Jakarta, Indonesia)

Jan 2021 - Jun 2021

- Developing the Business Model:** Deciding on the concept, target audience, and menu.
- Long-term Planning:** Setting goals for growth, profitability, and market expansion.
- Market Research:** Analyzing trends and customer preferences to make informed business decisions.
- Budgeting & Forecasting:** Planning the financial aspects of the business, including startup costs, operational expenses, and profit goals.
- Managing Cash Flow:** Ensuring the business is financially stable by controlling costs and increasing revenue.
- Pricing:** Setting menu prices to balance profitability with customer demand.
- Managing Day-to-Day Operations:** Overseeing the kitchen, service, and customer experience to ensure efficiency and quality.
- Inventory & Supply Chain Management:** Ordering ingredients and supplies, negotiating with vendors, and managing stock levels.
